

## Employment Opportunity

12 January 2006

NortekUSA is seeking an enthusiastic technical sales consultant to work within regional US markets. We believe this to be a great opportunity to work with an emerging leader in the world of Doppler current profilers, with significant potential for personal growth and income.

Nortek is a world leader in coastal acoustic Doppler current meters and wave sensors. The company provides scientific instruments to oceanographers and research engineers throughout the world. We have been growing rapidly and we seek innovative people to help carry things forward.

The right person will work out of our office in Annapolis, MD or from his/her home office on the West Coast or Gulf Coast and travel a minimum of 90 days per year (domestic and international). Responsibilities include sales of Nortek products within a designated region, arranging training and user seminars, acting as point of contact for special projects, participation in exhibitions and scientific conferences, organization of tests and trial deployments, and data analysis and report writing.

Qualifications and background should include a university degree in oceanography/ocean engineering (MS/PhD preferred), field experience, network of contacts within key scientific institutions, sincere interest in technical sales, and good communication skills with scientists, engineers and field technicians. Minimum two years work history within the US oceanographic community. Sales experience is advantageous but not mandatory.

Does this sound interesting? Send your cover letter and CV without delay by email to [inquiry@nortekusa.com](mailto:inquiry@nortekusa.com). Questions may also be directed to Eric Siegel at 1-866-444-7660 (EST) or Atle Lohrmann at +011 47 6717 4501 (GMT+1).
