NortekUSA Works With the Acadia Tidal Energy Institute

NortekUSA is pleased to help support and work with the Acadia Tidal Energy Institute (ATEI), housed at Acadia University in Nova Scotia. Strategically located on the Bay of Fundy’s Minas Basin, the Acadia Tidal Energy Institute will develop partnerships and lead multi-disciplinary research projects and other initiatives that address knowledge gaps associated with the developing tidal energy industry. The Institute will focus on tidal energy resource assessment, environmental monitoring and impacts, socio-economic growth, sustainable communities, and the development and delivery of tidal energy educational programs and other support materials.

“This is an exciting time to be involved in tidal energy research and the testing of commercial in-stream tidal energy devices” said Dr. Anna Redden, Director of... [Read more...](#)

NORTEKKnowledge

The following technical knowledge exchange opportunities are available from Nortek in the coming months:

WORKSHOP: Velocity Measurements from Gliders @ Ocean Sciences 2012

Tuesday, 21 February 2012

12:30 – 2:00 PM MST

Salt Lake City, Utah, USA

This workshop presents an overview of the measurement and analysis methods using broad band and pulse coherent acoustic Doppler current profilers to observe mean velocity, turbulence, and acoustic backscatter from a variety of moving platforms. Seats are limited so please register soon!

SeaReport: Reporting Made Easy

Nortek is pleased to announce the release of a new easy to use post-processing and reporting software suitable for engineers and technicians. With it's slick user interface SeaReport makes generating useful reports based on current data a simple task.

An often challenging task when generating quality reports is to ensure data quality. SeaReport offers integrated quality control of sensor and profiler data. This ensures that... [Read More...](#)

NortekUSA's Newest Team Member

Dan Goddard joins NortekUSA after seven years at PureTech Ventures. At PureTech he was responsible for the complete accounting, cash management, and reporting for "Venture Creation" company and its early stage portfolio companies. In addition Dan handled the facilities management and oversight of IT system, office infrastructure, human resources, and insurances for the parent and portfolio companies. At NortekUSA, Dan will be... [Read More...](#)

NortekUSA Awarded GSA Contract

NortekUSA is pleased to announce that, as of January 1st, 2012, it has been awarded GSA Contract GS-07F-0179Y. This contract allows US Government agencies to take advantage of specially negotiated procurement terms and simplified ordering procedures. The GSA contract includes all of our newest products such as... [Read More...](#)

Students!!! Don't Delay!!!

Time is almost up to turn in your best and most innovative proposal for this year's Student Grant Competition! Proposals are due by midnight on **1 Feb 2012!!**

Please visit the [2012 Student Equipment Grant Competition](#) on our website and good luck!

...come see us at:
